

HPC | Compressed
Air Systems

Authorised Distributor

Maziak and HPC - the new partnership

Maziak Compressor Services has been appointed by HPC as their Authorised Distributor for Northamptonshire, Cambridgeshire and Bedfordshire.

HPC Compressed Air Systems is recognised as the gold standard in the industry, supplying innovative products and system solutions to the UK's highest quality manufacturing businesses.

A leader in the UK market for fifty years, HPC's "yellow-box" compressed air systems can be found throughout British industry, from workshops and garages to factories and power stations.

Northamptonshire based Maziak has been a leading air compressor specialist in the East Midlands for over 40 years.

Maziak engineers have a wealth of experience of installing and servicing compressed air systems. This enables Maziak to provide a service of the highest quality to customers 24 hours a day, 365 days a year.

Maziak is able to respond quickly and at short notice to your needs and hold an unrivalled stock of spare parts along with new and reconditioned equipment.

Benefits of our partnership

- HPC is one of the UK's largest and most successful compressed air system providers
- Both Maziak and HPC are second generation family businesses sharing the same commitment to customer support
- Maziak has a wealth of experience across sales and engineering spanning over 40 years

Performance, Precision, Partnership

Products

“ We supply a premium product and service - not always with the lowest initial capital investment, but always designed to deliver the most economic true lifetime cost of compressed air”

HPC Compressed Air Systems provide quality, reliable, long-term cost-effective solutions to customers' present and future compressed air requirements.

“ We are often the only supplier prepared to guarantee our figures for energy efficiency”

HPC's customers are increasingly focused on energy efficiency, to both control costs and reduce their impact on the world's natural resources. HPC always provides the most efficient system solutions while minimising the environmental impact of its products.

The range of HPC compressed air equipment includes:

- Rotary screw compressors - 2.2 to 450kw (5.5 to 15bar)
- SFC variable frequency compressors
- Packaged air systems
- Refrigerant and Desiccant dryers
- Filtration and air purifying equipment
- Condensate management
- Compressor controllers and air management systems
- Air receivers and storage
- Piston compressors
- High pressure boosters
- Portable compressors
- Rotary blowers, exhausters and vacuum

“ We know our compressors inside out because we are part of the manufacturing process”

HPC Precision Engineering partners Kaeser Kompressoren GmbH of Coburg, Germany in the production of Sigma Profile air-ends. To maintain the close-tolerances required to ensure high energy efficiency and long operational reliability, HPC machines to within microns in temperature and humidity controlled environments.

Servicing

Servicing your Compressed Air System

Effective maintenance is essential for the reliability and efficiency of a compressed air system. Regular maintenance can help eliminate the risks associated with costly downtime and maximise productivity. Maziak engineers are multi-skilled, factory trained and have the resources and ability to respond to any situation 24 hours a day, 365 days a year.

Maziak engineers have access to the latest equipment and technology which allows quick, efficient diagnosis and repair keeping "downtime" to a minimum.

Maziak are able to provide competitive service quotes for all makes and types of compressors. An extensive stock of spares and a range of compressed air equipment, that is immediately available, enables Maziak to install new systems at short notice. In addition, re-conditioned stock and hire equipment is also readily available.

"Maziak's culture and values underpin all of our activities - customer satisfaction, teamwork, professionalism and integrity."

Maziak's range of compressed air services include:

- Energy saving audits
- Complete turn key installations
- Installed system modifications
- Compressor and dryer hire
- Heat recovery and ductwork
- Air quality testing to food industry and breathing air standards
- Point of use flow metering
- Remote monitoring and diagnostics
- Air leak surveys and repairs
- Insurance inspections
- Carbon Trust loan and ECA advisors
- Preventative maintenance service agreements
- Extended warranty
- Emergency breakdown and 24 hour call out
