

STARTERS

Initial Consultation

We work closely with you to gather all the necessary production parameters & conditions, including: air quality, existing components & the installation location.

[Find out more here](#)

Air Demand Analysis (ADA)

Using ADA, we monitor, analyse & generate precise consumption profiles of your system, allowing us to accurately examine & determine your actual compressed air demand.

[Find out more here](#)

KAESER Energy Saving System (KESS)

Using KESS, we process the data determined by the ADA & design a compressed air supply for you that saves up to 30% of your energy costs – possibly more.

MAINS

Screw Compressors

HPC KAESER rotary screw compressors are equipped with advanced SIGMA profile rotors. Save up to 15% in energy compared with conventional rotor profiles.

[Find out more here](#)

MOBILAIR Portable Compressors

Powerful, durable & easy to use: The HPC KAESER MOBILAIR range ensures optimum compressed air availability, even under the toughest of operating conditions.

[Find out more here](#)

Rotary, Screw & Turbo Blowers

Low-maintenance, quiet & efficient, HPC KAESER blowers generate compressed air for a wide range of different application.

[Find out more here](#)

Reciprocating Compressors

Reciprocating compressors are the best choice for high-fluctuation operation with load peaks – especially for trades, workshops & small industry.

[Find out more here](#)

Air Treatment & Condensate Solutions

Our comprehensive product range includes compressed air dryers, filters, activated carbon adsorbers, centrifugal separators, condensate drains & oil-water separators.

[Find out more here](#)

Compressed Air Storage & Distribution

HPC KAESER storage and air-main charging systems are key components for reliable and efficient compressed air generation.

[Find out more here](#)

Nitrogen Generation

Generate nitrogen gas on-site with the HPC Nitrogen Gas Skid, a plug and play solution for SMEs in the food and beverage industry.

[Find out more here](#)

Compressed Air Controllers

The SIGMA CONTROL 2 (local intelligence) & SIGMA AIR MANAGER 4.0 (central intelligence) controllers ensure efficient interplay between all components in your compressed air system.

[Find out more here](#)

HPC KAESER Measuring Technology

With our measuring technology, you can optimise & analyse efficiency, quality & costs in your production operation.

SIDES & DESSERTS

SIDES

Heat Recovery Systems

A rotary screw compressor converts 100% of the drawn electrical energy into heat. Up to 96% of this energy can be recovered. Reduce your energy costs & lower your carbon footprint.

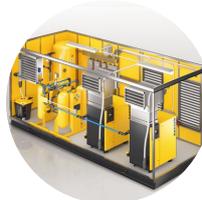

[Find out more here](#)

Containerised Solutions

Custom designed containerised compressed air stations, perfectly matched to your exact requirements. Each system is designed to suit to application & specific site requirements.

[Find out more here](#)

HIRE AIR

Are you looking for an interim solution for your compressed air or blower station? Solutions are available for all industries requiring compressed air in the low pressure (up to 1 bar), medium pressure (up to 10 bar) and high pressure ranges (42 bar).

[Find out more here](#)

Oil-Free Rental

HPC KAESER Oil-Free Hire ensures top quality oil-free compressed air for any application, for as long as you need it. HPC offers two options for oil-free hire purposes: The DSG 290-2 iHOC and the M500-2.

[Find out more here](#)

SIGMA Air Utility

With the SIGMA AIR UTILITY operator model, customers pay a fixed basic price that covers an agreed quantity of compressed air. Instead of investing in a complete compressed air station, the only cost is the compressed air that is actually used.

[Find out more here](#)

HPC KAESER Genuine Spare Parts

HPC KAESER Genuine Spare Parts have been the subject of development & tests in which their reliability, safety & special suitability has been assured.

[Find out more here](#)

DESSERTS

HPC 5 Year No Quibble Warranty

In the unlikely event of a fault, the plan provides you with the confidence & knowledge that it will be rectified quickly, expertly & without cost.

[Find out more here](#)

HPC Service & Maintenance

An HPC KAESER service agreement is the ideal way to maximise system availability, safety & value retention.

Compressed Air Training

As long standing members of the British Compressed Air Society (BCAS), HPC can offer customers 25% discount on all BCAS CPD approved Online Compressed Air Training Products.
